

## **Summer Internship on Visual Computing with PyTorch (29th May- 09th July 2023.)**

Department of Artificial Intelligence and Data Sciences, IGDTUW organized a summer internship on “Visual Computing with PyTorch” from 29th May- 09th July 2023. The course benefitted 180 students including both IGDTUW students as well as non-IGDTUW students. One of the main goals of the six-week summer internship was to make students understand the basics of visual computing and its applications in PyTorch programming language. The students were able to complete the internship course for six weeks. During these weeks, students worked on different project problems related to visual computing to enhance their programming skill-set. Moreover, students worked with faculty mentors to write research papers in the same domain.
